PRINCIPAL REASONS

Why Dr. Harlich's Compound strengthening and German Aperion: Pills are used by all classes of people, in preference to other M dicines, because they are prepared from a Pure extraot of Licels, a whotesome dicine, mild in its operation and pleasant in as effect-the most certain preserver of lightly and all Stomach Complaints, a preserver and nurifier of the whole sys-

Hecause they soothe the nerves of sensibility and fortify the nerves of motion, imparting to their most subtle fluid its pristine tone, thus giving strength and clearness of mind.

Because they never destroy the costs of the stomach and Sowelis, as all strong purgatives do.

Because science and experience teach us that no mere purgative alone will cure the disease of the St mach, nd nerves. Weakness is the primary cause of a host of diseases, and by continually resorting to Drastic pur gatives you make the disease much worse instead of

Because Dr. Harlich's Medicines are nut up upon the common sense principle, to cleanse and strengthen which is the only course to pursue to effect a cure. Lastly. Because these medicines really do cure the disease for which they are recommended. Principal office for the United States, is at No. 19 North Eight st. Philadelphin. For sale by J. P. Dyspepsia of ten years standing. I am truly happy to state to the afflicted community that a member of my family was afflicted for ten or twelve years with the above distressing disease. The symptoms were great proression after eating, acidity at the stumach, a severe pain in the side and breast, sick head arbe mental despondency, with other rymptoms during which time numerous remedies were preenred without channing mechanics. HEALTH.

Many of our readers, no doubt, are possessed with this all-important blessing, which they may long retain, if particular regard and care be paid to themselves, that, whenever they feel the lenst indisposed, to procure a proper medicine in "due season." But, on the contrary, we find thousands who are laboring under disease, and many, we fear will prove serious if not attended to early. Would these persons resort to the nedicine that has established itself in thousands of cases, which is Doctor HARLICH'S COMPOUND STRENGTH-ENING & GERMAN APERIENT PILLS, so pre-emeinent ly recommended for discoses incident to the human race, they would be replaced back again to · life's sweetest blessing which

We speak from occular proof, knowing, in many instances where cures have been performed by the use of this medicine, with marked success in various complaints, such as Dyspop-Back, Costivchess, Nervous Weakness, Emaclation, General Debility, &c. & This medicine consists of two distinct kinds viz:—The German Aperient and the Courouse Strengthening Toxic Piers, the former to remove bile and all excrement tious matter from the body, thus cleansing and purifying the system after which the latter are used to give strength and vigor to the weak and debilitated organs, restore the lost appetite, and produce tranquil rest and sweet repose. We highly approve of the "Doctor's theory" of trenting diseases, which certainly is safe and effectual, and advise the afflicted to give his medicine a fair trial — Daily Chronicle.

TO THE PUBLIC. DR. HARLICH'S PILLS.

The superiority of Dr. Harlich's pills over any other medi ine that has ever been offered to the public, is, that they cleanse and purify and strengthen. These are important items and their importance should not be overlooked. The system is liable, from improvidence and neglect, to accumulate bille. and a variety of diseased bumors. To purge the system of these impurities, should be early attended to. If it be neglected the patient may be subjected to painful disease and protracted suffering. The Graman APRELENT PLLS are admirably suited to this purpose—but more than this; while they cleanse the system they purify the blood, and assist nature kindly in her operations. The Compound strengthening Pills give tone to the stomach, while they impart vigor to the whole system; hence they are a desideralum, and no family should remain without them. In fact they are a sort of family physician, het unlike the eschool men"——for these Pills may be safely consulted in all cases—they may be taken without injury in any, while they afford positive relief in many. We only ask for a fair trial of their merits and are willing to abide the issuc. For sale by J. P. Chapin.

Symptoms.

Fig. HE symptoms arising from chienic diseases of the light are so various as almost to buffle description. They do not all appear in any one individual case, but show themthemselves, in different persons in great variety, both in ex tent, number, and degree, as the disorder exists in every gra-dation, and often for a long time so sligt as to cause no abrus, being nothing more than a sense of faliness after meals, with some screness of the bowels, a disposition to drowsiness, crustations of wind, ringing in the ears, dizziness of the head, tations of wind, ringing in the sars, districts of the lead, coldness of the extremities, followed by burning in the soles of the feet and palms of the hands, an unpleasant an sinking sensation at the pit of the stomach. Some cases are attended with watchfulness, or unretreshing sleep, disturbed by dreams Pais also, in either side, and most frequently in the left, ex. tending to the shoulter blades. The mind is often fretful suirritated by the most trifling causes, the memory becomes impaired, and there is a general disinclination for bodily ors mental exertion. The stomach sympathises; and is so much disturbed as to lead the patient to to suppose that his complaint arises from an affectation of this organ, while it le only affected by being in the vicinity of the real disease. The bowels become irregular, costivaness alternating with diaraboa, and frequently distended with gas. There is often a loss of appetite, at other times an unnatural craving for food. The urine becomes highly colored, and is frequently voided with pain. The countenance a sumes a sallow, cadaverous or sickly line. Dr. Charles Dyer, Jr. — My dear Sir. Your communication of yesterday, asking my opinion of Dr. Starkweather's He-patic Elizir, has been received this morning. In reply, I will inform you that my confidence in patent medicines generally is not very flattering. Illiave had too much reason to believe that unprincipled men will palm upon their fellow citizens useers if not dangerous nostrums for the sake of gain, the use of which takes up that important and critical period of time without producing and good effect, when otherwise perhaps, proper remedies would have been used, and much suffering and distress prevented. For that reason I have not used them, feeling myself and family to be much safer under directions of my family physicians; but having been afflicted for the last 6 years with difficulties in the side and chest, uncomfortable and often distressing, painful and somewhat alarming from which which I could get only temporary relief. I very fortunately noticed your advertisement of the medicine in ques

I need not therefore, say to you that I consider it of great value. I certainly thak its discovery of great public imper-The first bottle I took gave me much relief, which regular ly progressed until I had taken 6 bottles, when I discontinued it, having, thank God, no turther use for it at present.

With regard and respect, Your ob't and humble sery't,

Ma Covery.—Dear Sir.—Mrs. Chastency has taken two bottles of your Balm of Life, and to my surprise is now in better health than I have known her to be for several years. She has been afflicted with a severe cough for fifteen years. and by many Physicians her lungs have been pronounced incurable.
